

THE LEARNING SKILLS

Artificial Intelligence Outline

Key Highlights

- Applied Learning
- 48+ live sessions
- Resources for Self-paced Learning
- 30+ Industry Projects & Case Studies
- One-on-one with Industry Mentors
- Resume Preparation
- Whatsapp Support

Who Can Apply for the Course?

- Individuals with a bachelor's degree and a keen interest in learning AI and Data Science
- IT professionals looking for a career transition as Data Scientists and Artificial Intelligence Engineers Professionals aiming to move ahead in their IT career
- Artificial Intelligence and Business Intelligence Professionals Developers and Project Managers
- Freshers who aspire to build their careers in the field of Artificial Intelligence and Data Science

Who Is Eligible for the Course?

- Candidates with a bachelor's degree and a strong desire to delve into AI and Data Science

- IT experts who are seeking to shift their careers towards Data Science and Artificial Intelligence Engineering.
- Professionals aiming to advance in the IT industry
- Artificial Intelligence and Business Intelligence professionals, developers, and project managers
- Entry-level individuals aspiring to pursue a career in Artificial Intelligence and Data Science.

Learning Path

- Preparatory Sessions - Python
- Data Wrangling with SQL
- Python with Data Science
- Linear Algebra and Advanced Statistics
- Machine Learning
- Supervised and Unsupervised Learning in ML
- Performance Metrics
- Deep Learning Using TensorFlow
- Data Science Capstone Project
- Business Case Studies
- Elective - PowerBI or Tableau
- Elective - Deploying Machine Learning Models
